www.linkedin.com/in/clement-montagna

I am in my first year of engineering school in computer science and I have experience in computer networks and systems. I wish to use my knowledge in this sector to orient myself in the field of cybersecurity.

Education

Cesi engineering school (2020 - present)

- Engineering cycle (2022 - present)
 - MA in Computer Engineering
 - Networks and Systems specialization
 - Dev and Data capability
- Foundation degree (2020 - 2022)
 - First general year with computer science, construction and generalist speciality
 - Second year with computer science speciality only

High School (2017 - 2020)

- A-levels: math, physics, chemistry, engineering science
-

Employment

Administrator system and network, AspenPharma Group (2022 - Present)

- Supervision of the infrastructure to prevent possible problems
- Continuous improvement to have a more productive infrastructure
- User support to helping with network issues

Administrator system and network, ISII-TECH (2022 - 2022)

- Creating PRA/PCA for recovery of infrastructure
 - User support to helping with system issues
-

Activities and achievements

- National level athlete in hammer throw - sixth at the last French Championships
- Volunteer coach in my track and field club
- Member of the "Tech Club" - Design of an application to facilitate the life of students on my campus
- Volunteer award given by the Minister of Sports
- Hardware - Curiosity about how a computer works and made/customize it
